

Have you noticed your cat...

- Resting or sleeping more than normal
- Is more irritable being handled, stroked or fussed
- Is not grooming properly, or has an unkempt or matted coat
- Having difficulty toileting (or getting in the litter tray)
- Toileting outside of the litter tray
- Struggling to get comfortable
- Having difficulty jumping (e.g. onto the sofa/onto surfaces)
- Struggling with stairs, or hesitating before going up or down them
- Limping or walking with an abnormal gait
- Is stiff on rising, or lowering to sit or lie
- Has a hunched position when walking or sitting
- Has overgrown claws, or even claws grown into their pads
- Has a reduced appetite
